COLLEGE OF HUMANITIES

2019-2020 MAJOR MAP

"The University of Utah's Middle East Center and Middle East Studies Program are preeminent. My ability to study Arabic helped me substantially, as well as my courses really refined and focused my skill-set toward Security Studies, specifically Middle East, Caucasus and Central Asian Security Studies."

ABOUT THE MAJOR

The Middle East Studies major at the University of Utah is home to a close-knit community of students and faculty dedicated to the study of the Middle East. The program focuses on developing competencies in language, culture, history, and politics and connects students with experiential learning opportunities.

In this major, you will develop descriptive, analytical, and methodological tools to help understand the regions and cultures of the Middle East. With coursework grounded in language, you will gain or expand on your proficiency in Arabic or Persian. You will also select a variety of Middle East-focused classes from across campus. This interdisciplinary approach helps you build a deep knowledge of the region and provides the flexibility to tailor your studies to suit your interests, passions, and future goals; you can pair this major with pre-health courses, a minor, a second major, and/or exciting co-curricular activities.

You will be able to practice your critical language and cultural skills through first-hand experience by studying abroad, taking an intensive language program, and/or partaking in local and national competitions with the Model Arab League. These experiences build foundations for careers in public affairs, foreign service, business, and many other fields. With a degree in Middle East Studies, you will be prepared to effectively interact with diverse populations; understand cultures, backgrounds, and languages; and provide valuable contributions to their communities.

LEARNING OUTCOMES

- Develop or expand proficiency in Arabic or Persian in order to navigate a Middle Eastern nation and communicate with its people.
- Build a base of Middle East-oriented knowledge, skills, and global awareness that equips you for an international career.
- Demonstrate an understanding of history, cultures, politics, and fundamental ideas and institutions of the Middle East.
- Analyze and communicate about contemporary issues of the Middle East and/or Middle Eastern Diasporas through a critical, interdisciplinary lens.

PLAN & PREPARE

At the U, we plan for our students to have an Exceptional Educational Experience identified by four broad categories we call the Learning Framework: Community, Knowledge & Skills, Transformation, and Impact. This major map will help you envision, explore, design, and plan your personalized Exceptional Educational Experience with the Learning Framework at the core. In addition to assisting you in planning your coursework and navigating the requirements of your major, this map will help you incorporate other kinds of experiences to expand your knowledge, support your development, and prepare you for the future you want.
